## Feel the Comfort

Tacta® rests lightly in your hand thanks to its ergonomically designed handle and finger hook. The pipette is effortless to use and exceptionally comfortable to hold. Tacta® eases your workload and protects you from strain, even when you pipet-te for extended periods of your working day.

### Volume Adjustment

Use the Sartorius Optilock® feature to prevent accidental volume changes during pipetting. Either hold down the volume lock button with one hand and adjust the volume with the other, then release to lock, or with just one hand, slide the volume lock up, adjust the volume and slide down to lock again.

Optilock®

### Large, Clear Display

The large, easy-to-read display helps you to see all four digits of the set volume from a distance without straining your eyes. The volume is easy to read even when the pipette is angled – eliminating the need to turn your head into an uncomfortable position.

The volume is easy to read even when the pipette is angled.

### Calibration Adjustment

Tacta® is very easy to adjust, for various types of liquids, using a simple adjustment key. The adjustment scale shows the degree of adjustment. By noting this value for a specific liquid, you can return to that setting any time. Easy calibration adjustment ensures accurate results with a variety of liquids.

Calibration Adjustment

Special offer valid only for the US until June 30, 2024 and cannot be combined with other offers.
