## About Quantabio

Quantabio is a leading provider of advanced DNA and RNA amplification reagents for the most demanding molecular testing applications in applied, translational, and life science research. Our team leverages decades of experience in developing pioneering amplification technologies to deliver cutting-edge products to researchers focused on critical, PCR, qPCR, and Next-Generation Sequencing (NGS) applications.

## Unique Technologies

- ToughMix Chemistry – amplification from crude extracts
- Single tube qPCR and NGS solutions – easy workflows
- Enhanced stability – multi-day storage at room temperature
- Thermostable Reverse Transcriptase
- Ultra Fast Polymerase – amplify up to 1 kb/sec

## The Quantabio Challenge: Sample, Test and Save

Get a free Quantabio sample, test it in your lab, and share your thoughts in a quick online survey. Receive a special Buy Two, Get One Free (B2G1) offer on your first order after feedback.
